PROFESSIONAL EXPERIENCE

Scholarship Auditions

Software Development Intern

May 2023 - July 2023

Designed and implemented a new website DirectorsLetters.com using Node.js, Express.js and created the database with PostgreSQL using Amazon AWS. Also helped make changes to an existing website Accoladi.com. Managed direction of project and made sure sprints were done on time. Was an ambassador for the company at a conference out of state.

Scholarship Auditions

Lead Full Stack Software Development

July 2023 - December 2023

Continued work and changes to DirectorsLetters.com as well as helped maintain other websites such as ScholarshipAuditions.com, MyMusicFuture.com, and MusicCityBowlBand.com. Started implementing other websites for divisions of the company with the help of interns. Consulted with remote interns and set-up meetings to check on progress and assist in anything the interns needed. Consulted company on marketing ideas and direction of website to reflect this.
